WORKSHEET NO.

SUBJECT : Art & Craft

TOPIC : Creativity

We know that vacation time means enjoyment, fun, outing, good food and relaxation from routine work... but let's not get irresponsible by wasting our precious time doing nothing. Let's do something constructive and nice and in a way learn new and exciting things.

Do page No. 40 (Handicraft Helicopter) and 45 (Handicraft Book)

Handicraft

Make a Book

Materials:

- Blank A4 size sheets (4 to 6 sheets)
- Half a chart paper
- Gift-wrap paper or poster paints
- Fevicol
- Scissors

Steps to Follow:

Take the A4 sheets and place them one on top of the other evenly and fold them as shown in Figure 1. Apply pressure to make the folds crisp.

Take the chart paper and cut it to the size of an A4 sheet, leaving an extra 2" on both sides of the width of the paper.

Decorate this chart paper by pasting gift-wrap paper, or painting your own designs or vegetable printing.

Fold the decorated chart paper into half. Crease gently.

Open the folds of the A4 sheets and the decorated chart paper. Place the A4 sheets on the chart paper making sure that all the folds are exactly on each other.

Using a thick needle, make two holes along the fold, one hole 2" from the top and one 2" from the bottom.

Pass a thick twine through the holes and secure it tightly as shown in Figures 2 and 3.

Fold the extra portions of the decorated chart paper inwards, to form flaps, as shown in Figure 4.

A beautiful book is now ready.
